## ALL SORTS.

Frank Boskowitz is in the city.

Harry Lowden is on deck again.

Yesterday was the warmest day of the week.

The San Francisco Report has a much cleaner typographical appearance than ever before.

The death of Dr. Bronson, who was an old resident of the Comstock, will be deeply regretted by hundreds in this city and all over the State.

In the political struggle don't let us forget the Miner's Union picnic today. It will be the last of the season, so get in early and enjoy yourself.

The entire wood drive amounted to 50,000 cords and the tail end is nearly on dry land. The principal wood men are Longbaugh, Spooner and Martin.

Every voter on the streets yesterday seemed conversant with the inside working of the Convention and had the whole ticket mapped out before the delegates convened, but no two alike.

The Native Son who comes off victorious in the Examiner popular contest ought to get right in to politics after having so successfully felt the throbbing pulse of his companions.

Captain Galusha, of the Carson Guard shooting team, received a dispatch from the Miner's Union that the rifle shooting would come off according to programme at the picnic today.

The speech made by Hon. Francis Newlands seconding Bartine's nomination for Congress was a graceful and manly thing, as well as a remarkable piece of oratory. When he finished, the Convention rose bodily to its feet and cheered.

A half-witted girl, well-known in this city, drove out of town last night with two drunken men and when last seen were driving through Empire in an intoxicated condition. An effort was made to stop them but of no avail. The matter ought to be looked into.

The Louisiana Lottery Company are having a hard time in Congress. The House passed a bill virtually knocking it on the head. The Senate will undoubtedly concur with the House in giving the bill a passage. In that event, it is said, the company will be dissolved.

A Carson river mill superintendent says that if the snow fall next winter is one-half the average of last, there will be enough accumulated in the mountains, with that left from last winter's fall, to keep all of the river mills in full operation throughout next year and he predicts that the bullion products of Comstock mines in 1891 will exceed that of 1887. This opinion is based on an expected increase in the ore output of the Gold Hill mines when the flooded levels are drained, and the promising prospect of further developments in the north end and middle Comstocks.

The Examiner makes a good point on showing Mr. Scott what a mistake he made in not dividing the premium money he received for the San Francisco, among his ship-builders. It says: He missed an opportunity to put the relations between labor and capital in San Francisco on a footing that they have never yet occupied. He missed a chance, too, to show that capitalists on the Pacific Coast were keeping up with the march of progress. When a great manufacturing establishment has had a good year in the East it is not an unusual thing to set apart a portion of the earnings and give a part of it to every employee, as a recognition of the faithful work that has created the success and a stimulus to more work of the same kind in the future.

**Sunol Makes a Failure.**  
PHILADELPHIA, Sept. 4.—Sunol, in her first trial heat at Belmont Park this afternoon to beat her record of 2 10 1-4, trotted a mile in 2 11 3-4. The time was lost by a break of fully a second.

## THE NOMINATIONS.

**A Winning Ticket Placed in the Field.**

The Convention convened in National Guard Hall at 2 o'clock P. M. Thursday. It was called to order by Secretary Lord, of the State Central Committee, and the following temporary officers were chosen: Chairman, Tom Wren of Eureka; Secretary, F. P. Langan of Storey; Assistant Secretary, C. VanDuzer of Washoe; Sergeant-at-Arms, Wm. Oates of Storey, with W. H. McKen of Lyon and James Walker of Storey as assistants.

The various committees necessary to the organization of a Convention were appointed and an adjournment taken until 8 P. M.

Upon reconvening the temporary officers of the Convention were made permanent, an order of business was adopted and a ringing platform was submitted and agreed upon amidst the wildest of enthusiasm.

A recess was taken until 10 A. M. yesterday.

On the convening of the Convention this morning it was whispered that the Powning men had counted noses during the night, and coming to the conclusion that their man was "not in it," had resolved not to put Powning's name before the Convention. This proved true, the following nominations being made by acclamation:

Supreme Judge, R. R. Bigelow.  
District Judges, T. H. Wells, Richard Rising, A. E. Cheney and Geo. F. Talbot.

Congressman, H. F. Bartine, of Ormsby.

Governor, R. K. Colcord, of Esmeralda.

For Lieutenant-Governor Frank Bell, of Washoe, and Hon. J. Pougade, of Lincoln, were placed in nomination. Before proceeding to ballot a recess was taken until 2 o'clock.

The ticket was completed at the afternoon session as follows:

Lieutenant Governor, J. Pougade, of Lincoln.

Clerk of Supreme Court, Joe Joseph, of Storey.

Secretary of State, O. H. Gray, of White Pine.

Controller, R. L. Horton, of Lander.

Treasurer, J. F. Egan, of Storey.

Surveyor-General, John E. Jones, of Eureka.

Attorney-General, J. D. Torreyson, of Ormsby.

Superintendent of Schools, Orvis Ring, of Washoe.

State Printer, J. E. Eckley, of Storey.

Regents—J. W. Haimes, of Douglas, for long term; Dr. Harris, of Storey, short term.

## A Good Show.

The Opera House was well filled last evening by a highly delighted audience on the occasion of the opening entertainment of the Millar Brothers and Professor Norris, the chief of dog instructors. It is difficult to understand how Prof. Norris has raised his canine family to such a degree of human intelligence, but the animals speak, or almost speak, for themselves.

The second part of the entertainment is given by the Millar Brothers, with their famous illustrated tours of the world. The audience is conducted through Ireland, Scotland and all parts of Europe, eventually reaching America, where many of the great sights of this country are brought before the eye of the spectator in a most distinct manner. Many of the mechanical effects produced are artistic and really wonderful.

—Enterprise.

They will appear here on the 8th and 9th at the Opera House, with a matinee on Tuesday afternoon.

## Easily Applied.

Geo. Bryson, Sr. was stung on the right hand yesterday by three yellow jackets, and in a few minutes it began to swell. The old man walked into the Monarch and asked George Jr. what the best remedy was for such a sting. He was advised to use whiskey and apply it externally, but this method did not seem to take with the victim, and he finally found it convenient to apply the dose through his system. The first dose gave him immediate relief, and was quickly followed by another. The swelling went down rapidly, and now the old man claims that his reputation as a physician is assured. He furthermore says Geo. is no authority on sting medicines, and says whiskey is the best remedy when applied internally.

## The New Bullion Bars.

Smelters and mines that mill their own ore are now put to the necessity of providing themselves with new bullion molds. Heretofore the molds have been of various sizes and some of them of the weight of 2,000 ounces and over. Now, however, under the recent ruling of the Treasury Department in connection with the new silver law, no bars will be received that weigh over 1,200.—Enterprise.

This is probably done so as to make it lighter for the hard-working employees of the Mint and Wells, Fargo's driver.

## Not That Kind of a Goat.

A story comes from Yankee Hill to the effect that six young ladies of Gridley, who are camping at that famous summer resort, tackled a band of goats one day last week to milk one. They singled out an animal with long horns because it would be easy to hold. But the goat wouldn't milk; it wasn't built that way.—Oroville Mercury.

A crusty old bachelor declared the other day that no legal marriage could be effected in the State of Nevada. Upon being asked why, he said that marriage was a lottery, and that lotteries were expressly forbidden by the Constitution of the State.—Journal.

Minister Mizner has been advised to leave Guatemala as soon as his business will let him as the followers of General Barrundia threaten to kill him on sight.

For lame bac, side or chest use Shiloh's Porous Plaster. Price 50 cents.

WHAT ON EARTH—Is the reason people will not, cannot, or do not see any difference in cheap nostrums put up by Cheap John houses, or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing.—W. H. Chedic Druggist
